IC695ALG704 GE FANUC

P.O Box 25898 Sharjah

United Arab Emirates

Analog Output Module, 4 channels, that is configurable for voltage and current, configured for Current: 0 to $20 \, \text{mA}$, 4 to $20 \, \text{mA}$; Voltage: +/- $10 \, \text{VDC}$, 0 to $10 \, \text{VDC}$ per channel non isolated. Up to $16 \, \text{bit}$ resolution. Requires high capacity terminal block IC

Specifications Details
